5 <sup>th</sup>	I will add 4 points to your final numerical grade average for perfect attendant...no excuses of any kind		
6 <sup>th</sup>	I will deduct 3 points off of your final numerical test average for each class missed or being late more than 15 minutes or leaving class early no matter what the reason. This is not a penalty but a downgrade for not being able to learn the material taught in class.		
7 <sup>th</sup>	3 absences-you will receive no greater than a B- for a final grade no matter what the reason for the absences. 4 or more absences-you receive no greater than a C- for a final grade. Varsity sports or other school required meetings will be the only excused absences. Missing the first class due to late signing is not an acceptable excuse.		
8 <sup>th</sup>	The professor maintains the right to increase or decrease your grade based on class performance, attitude, attentiveness, respectfulness and all other normal circumstances, notwithstanding the above.		

This is not the course in which to cut class. Show up for class on time, even if you're seriously wounded, delirious, held hostage or dead. Attendance is required for this class and absolutely no excuses even if they are medical or death in the family, etc. If you miss classes due to injury or illness, drop the course. This is business law and it is an important subject. Lectures will include some materials not found in book assignments. Students will be tested on exams on both lecture information and my prepared & distributed outlines. Actual business/hypothetical situations will be discussed in class, and some appellate court decisions may be analyzed to promote legal thinking processes. All lectures are accompanied by outlines which will also be your exams.

Distractions that will absolutely not be tolerated!

1. talking to friends or fooling around during lectures
2. cheating on exams (anyone caught cheating automatically fails)
3. cell phone and pager rings during lectures
4. routine late class arrivals and missing midterm or final exam

## Outline 2

### **A Study of The Hispanic Invasion of America; an American dilemma**

#### What this culture brings to the US:

A look at a 2010 LA Times article about Hispanic behavior in LA County.

How they are guilty of two felonies; 1-illegally crossing our borders and refusal to pay income tax. If US citizens did this, we would be prosecuted and jailed but they will get amnesty and not get prosecuted at all.

Welfare; Food stamps; Medical care; Medical in California; Obstetrics, nursery/hospital, and the cost of their children birthed here at US taxpayers expense, etc.

Burden on US schools

Crime, DUI's, and major crimes

Drug infestation and proliferation

Do not pay SS and FICA

Send excess earnings to Latin American nations-do not reinvest in the USA as they have little or no interest in this nation.

A look at the 10-40 window.

Police, national guard & military, legislation costs and costs for retaining wall to halt proliferation.

Drugs and Mexican/Columbian cartels operating in the US and cost to American taxpayers

Very liberal socialistic mores and voting traditions.

Church ordered no birth control...average 5.5 children per Mexican woman; 7 per Puerto Rican woman; they are culturally taught to be carefree, poor, illiterate breeders who are irresponsible to all other races and creeds of the world. This is also common in African and Arab nations, the poorest places on earth, where birth control should be most practiced. Also, these two cultures migrate into other 1<sup>st</sup> world nations and corrupt them after they lose control of their own nations to dictators and socialists.

Many bring sexual perversion, voodoo, Santeria, communism/anti-American ideas and customs into the US.

Illiteracy (poorest nations on earth along with Africans and Arabs according to UN).

They are non-English speaking persons who are reluctant to learn English, and this requires the US to become bi-lingual in many larger cities. Americans cannot own land in Mexico.

These people did not fight to defend American, die for America or build America but they are here now to take our tax dollars for themselves and breed children for us to deal with.

Query: what if 45 million US citizens migrated to Mexico, Cuba or some other Hispanic country doing the same things, and 12 million of them (30%) were illegal, what would they think or do about it?

## Class 2

### **Subject 2 International Comparative Law Big 3 World Business/Legal Systems (Civil Law, Common Law, Islamic Law) & the impact of Islam on world business and other cultures**

Define international law- how is it made and what is its scope. We will discuss the differences between international tribunals and the practice in municipal courts. A study of the 3 major business/legal systems of the world. The Romano-Germanic civil law system...the Anglo American Common law system... or Islamic law system. Islamic nations & Islamic terrorism-affect on world peace and world economical issues; its production of poverty, effect on democracy, detrimental impact on trade and travel, etc. The effect & impact of various religions on local and all major world events, such as standard of living, economies, competition for territory & population movements, tourism, etc.

8 <sup>th</sup>	The professor maintains the right to increase or decrease your grade based on class performance, attitude, attentiveness, respectfulness and all other normal circumstances, notwithstanding the above.

This is not the course in which to cut class. Show up for class on time, even if you're seriously wounded, delirious, sick or held hostage. Attendance is required for this class and absolutely no excuses even if they are medical or death in the family, etc. If you miss classes due to injury or illness, drop the course. This is business law related and it is an important subject. Lectures will include some materials not found in book assignments. Students will be tested on exams on both lecture information and my prepared & distributed outlines. Actual business/hypothetical situations will be discussed in class, and some appellate court decisions may be analyzed to promote legal thinking processes. All lectures are accompanied by outlines which will also be your exams.

This is Graduate level: distractions that will absolutely not be tolerated! These will affect your grade

- cheating on exams (anyone caught cheating automatically fails)
- cell phone and pager rings during lectures
- routine late class arrivals and missing any exam
- bathroom breaks during any exam
